

Caitlyn S. Butler

(maiden name: Shea)

University of Massachusetts, Department of Civil and Environmental Engineering
16B Marston Hall, 130 Natural Resources Road
Amherst, MA 01003 413-545-5396

Education

Ph.D., Environmental Engineering, Department of Civil Engineering and Geological Sciences, University of Notre Dame, 2010

Dissertation: *Fundamental and Applied Studies of Microbial Fuel Cells for Sustainable Water and Wastewater Treatment*, Adviser: R. Nerenberg, Ph.D.

B.S., Engineering Science, Picker Engineering Program, Smith College, 2004

Honors Thesis: *Mechanistic Study of the Oxidation of H-terminated Silicon(100)*, Adviser: K.T. Queeney, Ph.D.

Current and Previous Positions

Assistant Professor, Department of Civil and Environmental Engineering, University of Massachusetts, Amherst, MA 2011-present

Research Interests: *My research objectives focus on developing energy-efficient treatment strategies for both water and wastewater treatment. I study biofilm systems where microorganisms use counter-diffusional chemical gradients to accomplish treatment goals. I am interested in developing scalable process designs that could be easily integrated into existing treatment infrastructure, but am also interested in the ecology and function of the microorganisms that facilitate treatment. In addition to my technical research objectives, I am also interested in developing and assessing the effectiveness of educational techniques and strategies to improve engineering education.*

Assistant Professor, Department of Engineering, College of Technology and Innovation, Arizona State University, Mesa, AZ, 2010-2011

Graduate Faculty, Civil, Environmental, and Sustainable Engineering Ph.D. Program, School of Sustainability and the Built Environment, College of Engineering, Arizona State University, Tempe, AZ, 2010-2011

Graduate Research Assistant, Department of Civil Engineering and Geological Sciences, University of Notre Dame, Notre Dame, IN, 2004-2009

Research Topics: *Microbial Fuel Cells (MFCs), Microbial Ecology, Scalable MFC Reactor Design Using Hollow Fiber Membranes and Biocathodes for Denitrification and Perchlorate Reduction*, Adviser: R. Nerenberg, Ph.D.

Graduate Teaching Assistant, Department of Civil Engineering and Geological Sciences and

Department of Chemical Engineering, University of Notre Dame, Notre Dame, IN, 2004-2007

Courses: *Introduction to Chemical Engineering, Introduction to Environmental Engineering, Hazardous Waste Management, Civil Engineering Materials, and Environmental Microbiology*

Undergraduate Research Assistant, Department of Chemistry, Smith College, Northampton, MA, 2002-2004

Research Topic: *Mechanistic Study of the Oxidation of H-terminated Silicon and Protein Adsorption to Silicon Surfaces*, Adviser: K. Queeny, Ph.D.

Undergraduate Teaching Assistant Department of Physics and Picker Engineering Program, Smith College, Northampton, MA, 2002-2004

Courses: *Fundamentals of Environmental Engineering, Mass and Energy Balances and Introduction to Physics*

Undergraduate Research Assistant, Picker Engineering Program, Smith College, Northampton, MA, 2001-2002

Research Topic: *Impedance of the Human Ear Canal*, Adviser: S. Voss, Ph.D.

Vice-President of Distribution - "Hears to You": The National Discount Battery Service, Northampton, MA 1996-2004

Fellowships, Honors and Awards

Lilly Fellowship for Teaching Excellence, awarded by University of Massachusetts Center for Teaching and Faculty Development, 2017

Student Centered Teaching and Learning Fellowship, awarded by University of Massachusetts Center for Teaching and Faculty Development, 2015

National Science Foundation CAREER Award, for five years of research support for the improved understanding of cross-kingdom biofilms, 2015

AfricaSan Research and Technological Innovation Award, awarded by the African Ministers' Council on Water for the development and deployment of the Microbial Fuel Cell Latrine, 2015

Exceptional Merit Award, award in recognition of professional accomplishments by the Office of the Provost, University of Massachusetts, Amherst, 2014

ASCE ExCEED Fellowship, a fellowship awarded to attend the ASCE Excellence in Civil Engineering Education (ExCEED) Teaching Workshop, 2012

NSF Environmental Molecular Science Institute Fellowship, a research fellowship awarded internally by EMSI at the University of Notre Dame, 2009

Bayer Predoctoral Research Fellowship, a research fellowship given by the Center for Environmental Science and Technology at the University of Notre Dame, 2008

Excellence in Teaching Award, given by the Kaneb Center for Teaching and Learning at University of Notre Dame, 2007

Transatlantic Environmental Biotechnology Fellowship, for travel to and work at the Laboratory for Microbial Ecology and Technology at Ghent University, Ghent, Belgium. Supported by EU-US Task Force on Biotechnology, 2007

Adeline Devor Penberthy Memorial Prize, for excellence in engineering and leadership at Smith College, 2004

Picker Engineering Fellowship, a four year undergraduate scholarship at Smith College, 2000-2004

Teaching Experience

Department of Civil and Environmental Engineering, University of Massachusetts, Amherst, MA, 2011-present

Courses Instructed:

1. Introduction to Thermodynamics and Heat Transfer - CEE 250 - Spring 2018
2. Bioprocess Lab - CEE 697P - Fall 2016
3. Environmental Engineering Microbiology - CEE 573 - Fall 2015, Spring 2017
4. Biological Processes in Environmental Engineering - CEE 671 - Fall 2011, 2012, 2013
5. Environmental and Water Resources Engineering Seminar - CEE 691/692 - Fall 2012, 2013, Spring 2017
6. Introduction to Environmental and Water Resources Engineering - CEE 370 - Spring 2012, 2014, 2016, Fall 2014

Department of Engineering, College of Technology and Innovation, Arizona State University, Mesa, AZ, 2010-2011

Courses Instructed:

1. Engineering Design - EGR 202 - Spring 2010, Spring 2011
2. Civil Engineering Capstone - EGR 401/402
2009-2010 - Civil Infrastructure Solutions in Ghana, Africa
2010-2011 - Quagga Mussel Prevention at Desert Basin Power Generation Facility
3. Environmental Engineering - EGR 494 - Fall 2010
4. Material Selection - EGR 224 - Spring 2011

Notable Professional Development and Achievements

Innovate@UMass, awarded a fellowship to participate in the inaugural symposium to provide faculty with hands-on training in latest instructional technologies while building a

community of scholars who will contribute to a campus innovation think tank throughout the academic year. Amherst, MA, 2016

NEWEA Community Award, worked with Kathleen Shea of the Clarke Schools for Hearing and Speech to develop elementary engineering curriculum based in language develop and acquisition. This work was award a \$1000 grant from the New England Water Environment Association for the purchase of classroom science and engineering materials. 2015-2016

Nominated for Distinguished Teaching Award, University of Massachusetts, 2016

Research Advising

Civil and Environmental Engineering, University of Massachusetts, Amherst, MA, 2011-present

Postdoctoral Scholars

Cynthia Castro, Research Topic: *Microbial Ecology of Oxygenic Photogranules*, Research Period: September 2017 - present

Celina Dozier, part-time, primary advisor: David Reckhow, Research Topic: *Pharmaceuticals in Urine Composts from Community Gardens*, Research Period: September 2016 - present

Cloelle S.G. Danforth (nee Giddings), Research Topic: *Reactor Design for Microbial Electrosynthesis*, Research Period: May 2012 - June 2013

PhD Students

Samuel Downes, Dissertation, Civil and Environmental Engineering, Research Topic: *Oxygenic Photogranules under Periods of Stress*, Start: August 2017, Expected Completion: May 2022

Salimar Cordero Mercado, co-advised with Dr. Boris Lau, Research Topic: *Nanoparticles in Biofilms*, Student Accomplishments: *Northeast Alliance for Graduate Education and the Professoriate Fellowship, 2017*, Start: August 2017, Expected completion: August 2022

Joann Rodriguez Suarez, co-advised with Dr. Boris Lau, Research Topic: *Polymer-crosslinking in Biofilms*, Student Accomplishments: *Northeast Alliance for Graduate Education and the Professoriate Fellowship, 2017, Ford Foundation Fellowship Honorable Mention, 2016, Berger Award, Awarded: 2017*, Start: August 2015, Expected completion: August 2018

Varun Srinivasan, Research Topic: *Microbial Competition in Electrode-Associated Biofilms*, Student Accomplishments: *Edward Sisson Fellowship, Awarded: 2013, Biofilm Summer School Fellowship, Awarded: 2014, Berger Award, Awarded: 2015*, Start: August 2012, Completed: February 2017, Graduation: May 2017

Cynthia Castro, Research Topic: *Microbial Dynamics in Large-scale Anodes*, Student Accomplishments: *National Science Foundation (NSF) Graduate Research Fellowship, Awarded:*

2012, Texas AWWA Scholarship Awarded: 2012, NSF Graduate Research Opportunities Worldwide, Awarded: 2014, Perrell Fellowship, Awarded: 2017, Start: January 2014, Graduation: August 2017

Masters Students

Megan Hann, Research Topic: *Mechanisms of formation and ecology of Oxygenic Photogranules*, Start: August 2016, Expected Completion: May 2018

Kristie Stauch-White, Research Topic: *Microbial Ecology in Oxygenic Photogranules*, Student Accomplishments: *Boscov Fellowship, Awarded: 2014, National Science Foundation (NSF) Graduate Research Fellowship, Awarded: 2015, Noga Award, Awarded: 2016*, Start: August 2013, Completed: December 2016

Joshua Jack, Research Topic: *Methanogenesis in the MFC Latrines*, Start: August 2014, Completed: December 2015

Cynthia Castro, Research Topic: *Developing a Microbial Fuel Cell Latrine for Organics and Nitrogen Removal*, Start: August 2011, Completed: January 2014

Jacob Weinrich, Research Topic: *Bioelectrochemical Reduction of Oxidized Contaminants*, Start: August 2011, Completed: September 2013

Visiting Students and Scholars

Anbarasan Anbalagan, Malaraden University, Sweden, Research Topic: *Nitrogen Transformation in Phototrophic Bioreactors*, Start: February 2017, End: June 2017

Thesis and Dissertation Committee Member

Civil and Environmental Engineering, University of Massachusetts, Amherst, MA, 2012-present

Camilla Kuo-Dahab, Dissertation: *Exocellular Polymeric Substances in Oxygenic Photogranules*, Committee Chair: Chul Park

Adam McNair, Thesis: *Pilot Reactor Operation of the Oxygenic Photogranules Wastewater Treatment Processes*, Committee Chair: Chul Park

Christopher Watt, Thesis: *Using Oxygenic Biogranules in Sequencing Batch Reactors to Treat Wastewater*, Committee Chair: Chul Park

Heonsop Eom, Dissertation: *Investigation of Bioavailability of Dissolved Organic Nitrogen (DON) Derived from Conventional Activated Sludge (CAS) and Biological Nutrient Removal (BNR) Processes*, Committee Chair: Chul Park

Aaron Brennan, Thesis: *Investigating Pilot Scale Performance of an Activated Sludge Wastewater Treatment system with a High Rate Anaerobic Side Stream Reactor*, Committee Chair: Chul Park

Department of Microbiology, University of Massachusetts, Amherst, MA, 2011-2014

Sarah Hensley, Dissertation: *Optimizing Bioremediation of Complex Organic Compounds using Hyperthermophiles Through the Determination of Factors Effecting Archaeal Fermentation Balance*, Committee Chair: Jim Holden

Department of Landscape Architecture and Regional Planning, University of Massachusetts, Amherst, MA, 2012-2014

Katie Fox, Thesis: *A Grounded Theory Analysis of the Green Latrine Sanitation Pilot Project Planning and Construction at the Nyakrom Secondary Technical School in Nyakrom, Ghana*, Committee Chair: Ellen J. Pader

Center for Environmental Biotechnology, Biodesign Institute, Arizona State University, Tempe, AZ, 2010

Precious Biyela, Dissertation: *Water Quality Decay and Pathogen Survival in Drinking Water Distribution Systems*, Committee Chair: Bruce Rittmann

Additional Graduate Student Mentoring

University of Massachusetts Innovation Challenge

Team Green Latrine:

Cynthia Castro and Joe Goodwill, Civil and Environmental Engineering Department, Katie Fox and Sally Miller, Landscape Architecture and Regional Planning Department

Won MinutePitch Competition, Awarded: \$1000, October 2012

Runner-up Executive Summary Competition, Awarded: \$1000, December 2012

Undergraduate Students

Civil and Environmental Engineering, University of Massachusetts, Amherst, MA, 2012-present

Fernanda Brena, Research Topic: Oxygenic Photogranules, Summer REU from Tufts University, 2017

Christa Spedding, Bridgette Charlebois and Leighann D'Andrea, Research Topic: *Urine Composting at the Florence Community Garden*, 2016-present

Katelyn Evans, Research Topic: *Large-scale Microbial Fuel Cell Performance*, 2016-present

Davis Miller, Research Topic: *Nanoparticles and Biofilms*, 2016-present

Dan Clasby, Research Topic: *SCFA Profiles in Fermented Biosolids*, 2015-present

Gilson Hogan, Research Topic: *Cultivation of OPGs*, 2015-2016

Carly Prystac, Research Topic: *Biochar Microbial Fuel Cells*, 2013-2014

Timothy Ma, Research Topic: *MFC Pilot Latrine*, 2012-2013

Department of Engineering, College of Technology and Innovation, Arizona State University, Mesa, AZ, 2010-2011

David Dulebon and Paul Reidhead, Research Topic: *Organics and Nitrogen Removal from Agricultural Waste Streams via Microbial Fuel Cells*

Peer-Reviewed Journal Articles

* indicates graduate students and postdocs

A note on author order: The convention predominantly observed in my area of research for

peer-reviewed original research articles is the lead student is the first author and the PI and corresponding author is the last author, anchoring the author list. Contributing students, faculty and researchers are listed based on their contributions in between.

1. Milferstedt, K., Kuo-Dahab, W.C.*, **Butler, C.S.**, Hamelin, J., Abouhend, A.S., Stauch-White, K.*, McNair, A., Watt, C., Carbajal-Gonzalez, B.I., Dolan, S., and Park, C. Invited Panels, Presentations, and Seminars

-
1. **Butler, C.** Energy and Resource Recovery in Wastewater Treatment, Water Innovation Workshop, Worcester Polytechnic Institute, Worcester, MA, October 2016
 2. **Butler, C.** Resource Recovery in Wastewater Treatment, Harvard University, Cambridge, MA, September 2015
 3. **Butler, C.**, Backer, S., Sherer, R., Work-Life Balance, Senior Design Clinic, Smith College, April 2015
 4. **Butler, C.** Bioelectricity Generation from Wastewater Treatment, State University of New York Polytechnic, Albany, NY, 2014
 5. **Butler, C.**, Hooker, B., Klare, M., Global Trends Forum, Smith-Tuck Global Leaders Program for Women, Smith College, 2014
 6. **Butler, C.**, Decentralized, electricity-producing biological treatment of organic and nitrogen components of domestic waste, Northeast Bioengineering Conference, Northeastern, May 2014
 7. Burnside, A, **Butler, C**, Holmes, D., McKeown, K.A., Rapp, L, Academic Career Panel, Exploring Careers in Academia, Graduate Women in STEM, UMass, December 2013
 8. **Butler, C.**, Life after Smith and Engineering Design for the Developing World, Introduction to Engineering in the Department of Engineering, Smith College, Northampton, MA - October 2013
 9. **Butler, C.**, Sustainable Sanitation Solutions for the Developing World, Introduction to Engineering in the Department of Engineering, Smith College, Northampton, MA - November 2012
 10. **Butler, C.**, The Microbial Fuel Cell Latrine, Holyoke Community College, Holyoke, MA - November 2012
 11. **Butler, C.** Bioelectrochemical Systems: opportunities for energy recovery while meeting treatment objectives, BioWET: Biological Waste to Energy Summer School, University of South Florida, Tampa, FL - July 2012
 12. **Butler, C.** International Society for Industrial Ecology Future Faculty Workshop, IEEE International Symposium for Sustainable Systems and Technology, Boston, MA - May 2012

13. **Butler, C.** Bioelectricity Generation from Wastewater Treatment: Opportunities for Sustainability, Department of Civil Engineering, University of Massachusetts, Dartmouth, Dartmouth, MA - February 2012
14. **Butler, C.** Fundamental and Applied Studies of Microbial Fuel Cells for Sustainable Water and Wastewater Treatment, Environmental and Water Resources Engineering Department, Tufts University, Medford, MA - February 2012
15. Chen, Q., **Butler, C.**, Green, D., Hristovski, K., McKenna, A., Tridane, A., Undergraduate Research. Annual College Retreat, College of Technology and Innovation, Arizona State University, Mesa, AZ - January 2011
16. **Butler, C.** Performance and Microbial Ecology of Microbial Fuel Cells with Biocathodes. North American BioElectric Systems Meeting, University of Massachusetts, Amherst, MA - October 2010
17. **Butler, C.**, Fundamental and Applied Studies of Microbial Fuel Cells for Sustainable Water and Wastewater Treatment. School of Sustainable Engineering and the Built Environment, Arizona State University, Tempe, AZ - February 2010
18. Chantem, T., McCumbers, R., **Shea, C.**, Building Community Through Improved Communication. Midwest Regional Conference of the National Association of Graduate and Professional Students, Notre Dame, IN - March 2009
19. Chantem, T., McCumbers, R., **Shea, C.**, Graduate Student Union - Progress and Future Goals. University of Notre Dame Board of Trustees, Notre Dame, IN - October 2008
20. Chantem, T., McCumbers, R., **Shea, C.**, Graduate Student Union - State of the Union Report. University of Notre Dame Board of Trustees, Notre Dame, IN - October 2007
21. **Shea, C.**, Sausville-Giddings, C., Taugher, M., Biological Nitrogen Removal via Partial Nitrification and Denitrification. Metcalf and Eddy, New York, New York - May 2004

Funded Projects

Total as a PI: \$757,600

Total as a co-PI: \$7,677,000

1. *Supplemental Funding: CAREER-Life Balance Initiative: Fundamental Studies of Cross-Kingdom Aggregate Biofilms for Energy-Efficient Wastewater Treatment*, PI: **C. Butler**, National Science Foundation, September 2017-December 2017, Funding Awarded: \$26,000
2. *Advancing the Oxygenic Photogranule Process for Energy Positive Wastewater Treatment*, PI: C. Park, co-PI: **C. Butler** and C. Wilson, Water Environment and Reuse Foundation, April 2017-May 2019, Funding Awarded: \$15,000
3. *GOALI: Advancing the Oxygenic Photogranule Process for Energy Positive Wastewater Treatment*, PI: C. Park, co-PI: **C. Butler** and C. Wilson, National Science Foundation, June 2016-May 2019, Funding Awarded: \$320,000

4. *Microbial attenuation of non-point source pharmaceutical and personal care products pollution from antiquated septic systems in coastal communities*, PI: **C. Butler**, co-PI: K. Ikuma, Massachusetts Water Resources Research Center/USGS, March 2015-February 2016, Funding Awarded: \$30,000
5. *NSF CAREER: Fundamental Studies of Cross-Kingdom Aggregate Biofilms for Energy-Efficient Wastewater Treatment*, PI: **C. Butler**, National Science Foundation, June 2015-May 2020, Funding Awarded: \$500,000
6. *NSF MRI: Acquisition of A Versatile High Resolution MS System for Determination of Small Molecules of Environmental and Health Concern*, PI: David Reckhow, co-PIs: C. Park, J. Tobiason, **C. Butler**, National Science Foundation Major Research Instrumentation Opportunity, September 2014-August 2016, Funding Awarded: \$455,000
7. *Enhanced Fuel Cells From Wastewater Treatment*, PIs: **C. Butler**, M. White, Air Force Small Business Innovation Research Grant, July 2014-June 2015, Funding Awarded: \$149,582
8. *Water Innovation Network for Sustainable Small Systems (WINSSS)*, National Center for Innovation in Small Drinking Water Systems, PI: David Reckhow, co-PIs: Tobiason, John; **Butler, Caitlyn**; Park, Chul; Shenoy, Prashant; Lawler, Desmond; Kirisits, Mary J.; Katz, Lynn; Kinney, Kerry; Speitel, Gerald; Saleh, Navid; Dvorak, Bruce; Ray, Chittaranjan; Lai, Rebecca; Wilson, Steve; Boyer, Treavor; Zhang, Qiong; Brown, Jess, Environmental Protection Agency, July 2014-June 2017, Funding Awarded: \$4,099,999
9. *Elucidating Novel Algal-Sludge Granule for Wastewater Treatment and Biomethane Feedstock Production*, PI: Chul Park, co-PI: **C. Butler**, National Science Foundation Chemical, Bioengineering, Environmental and Transport Systems, September 2013-August 2016, Funding Awarded: \$342,368
10. *Phase II: The Microbial Fuel Cell Latrine - Enhanced Electricity Recovery from Domestic Waste and Expanded Deployment*, PI: **C. Butler**, co-PIs: Mark Henderson and Brad Rogers, Gates Grand Challenges Explorations, May 2013-April 2015, Funding Awarded: \$100,000
11. *Electrofuels via Direct Electron Transfer from Electrodes to Microbes* PI: D. Lovley, co-PIs: K. Nevin, **C. Butler** and T. Russell, Applied Research Project Agency - Energy (ARPA-E), January 2012-June 2013, Funding Awarded: \$2,300,000
12. *Adapting Traditional Pit Latrine in the Developing World for Nitrogen Removal and Electricity Production* PI: **C. Butler**, Co-PIs: M. Henderson and B. Rogers, Gates Foundation Grand Challenges Explorations, November 2011-May 2013, Funding Awarded: \$100,000
13. *Organics and Nitrogen Removal from Agricultural Waste Streams via Microbial Fuel Cells* PI: **C. Butler**, Western Alliance for Extending Student Opportunities, June 2009-August 2009, Funding Awarded: \$1600 for an undergraduate research assistant and supplies.

Internally-Supported Projects

Total: \$63,420

Office of Research Development, University of Massachusetts, Amherst, MA

1. *Characterization of Pharmaceuticals in Urine-compost at the Grow Food Northampton Community Organic Garden.* PI: **C. Butler**, co-PI: D. Reckhow, Funding Awarded: \$10,000, July 2016-June 2017

Department of Engineering, College of Technology and Innovation, Arizona State University, Mesa, AZ

1. *Capital Equipment and Undergraduate Student Support for Molecular Analysis of Biocathode Biofilms* PI: **C. Butler**, Funding Awarded: \$35,720
2. *Modified Mastery-based Learning in Engineering Courses*
PIs: J. Bekki, **C. Butler**, and O. Dalrymple Funding Awarded: \$2000

Graduate School and College of Engineering, University of Notre Dame, Notre Dame, IN

1. *First Annual Graduate Research Symposium*
Co-PIs: McCumbers, R., Chantem, T., **Shea, C.** Graduate School Professional Development Funding Opportunity, Funding Awarded: \$12,200
2. *Integration of Energy Topics into Environmental Biotechnology and Wastewater Treatment Design*
PI: Nerenberg, R. and co-PI: **Shea, C.**, Notre Dame Energy Center Curriculum Development Grant, Funding Awarded: \$3,500

Travel Awards

1. *Downes Travel Grant*
for travel to International Microbial Fuel Cell Symposium Laboratory Workshop, Pennsylvania State University, University Park, PA. Supported by the Graduate School at the University of Notre Dame
2. *International MFC Symposium Student Travel Grant*
for travel to present at the International Microbial Fuel Cell Symposium, Pennsylvania State University, University Park, PA. Supported by Office of Naval Research
3. *IWA Young Water Professionals Conference Travel Support*
for travel to present at the International Water Association Young Water Professional Conference, Berkeley, CA.

Professional Activities

Advisory Council - Picker Engineering Program, Smith College - 2018

Awards Committee - Association of Environmental Engineering and Science Professors - 2017 - present - reviews awards applications

University Forum Committee - American Water Works Association - 2016- present - reviews scholarship application and student research abstract

National Science Foundation CAREER Review Panel, 2016, 2015 - CBET, Environmental Engineering

Ad Hoc Proposal Reviewer, 2016, Canadian Research Chairs Program, Tier II Chair

Guest Editor, 2016, Special issue of Environmental Engineering Science, Innovative Global Solutions for Bioenergy Production.

Ad Hoc Proposal Reviewer, 2016, USDA SBIR Phase II

Invited Participant, 2016, NSF/WEF/DOE Workshop for Creating Metrics for a National Wastewater Testbed Network, Washington, D.C.

Ad Hoc Proposal Reviewer, 2015 - Israeli Ministry of Science, Technology and Space - Division of Applied Engineering Research

Reviewer, 2015 - International Society for Microbial Electrochemistry and Technology Awards

Invited Participant, 2014 Sustainable and Resilient Water Solutions for Rural Communities Workshop, Glasgow University, Scotland

Advisory Board - 2014 North American Meeting of International Society for Microbial Electrochemistry and Technology

Membership Committee Member - International Society for Microbial Electrochemistry and Technology- 2013-2014

Lecturers Committee Member - Association of Environmental Engineering and Science Professor - 2013-present

Biofilm Interest Group Member - Water Environment Federation - 2012-2013

Session Chair/Organizer - Microbial-based Fuel Cells - International Symposium on Bioremediation and Sustainable Environmental Technologies, 2011

Session Moderator - Microbial Fuel Cells - Water Environment Federation/ International Water Association Biofilm Reactor Technology Conference, 2010

Scientific Committee - Young Professional Member - Water Environment Federation/ International Water Association Biofilm Reactor Technology Conference, 2010

National Science Foundation Review Panel, CCLI (now called TUES), 2010

Ad Hoc Reviewer - Applied Microbiology and Biotechnology, Biofouling, Bioresource Technology, Biotechnology and Bioengineering, Environmental Engineering Science, Environmental Science:Water Science and Technology, IWA Journal for Water, Sanitation and Hygiene Development, Environmental Science and Technology, PLOS one, Water Research, and Water Science and Technology, 2007-present

Session Moderator - Water Quality and Availability - Notre Dame Environmental Education and Research Symposium, 2006

Professional Memberships

Association of Environmental Engineering and Science Professors (AEESP)

American Society of Engineering Education (ASEE)

International Water Association (IWA)

Water Environment Federation (WEF)

American Chemical Society (ACS)

University and Department Service

University of Massachusetts, Amherst, MA

Ad Hoc Reviewer, 2016, Office of Research Development, Faculty Research Grant

College of Engineering, University of Massachusetts, Amherst, MA

CEE Open House Committee, 2017-present, plans and executes Open House activities for prospectives and admitted students to College of Engineering

EWRE Awards Committee, 2017-present, compiles lists of environmental and water resources awards appropriate for the accomplishments of EWRE faculty and initiates the nomination process

CEE Curriculum Committee, 2016-present, review materials and proposal relevant to the Civil Engineering curriculum

CEE Water Resources Search Committee, 2015-2016, performing a faculty search in the area of water resources

CEE History and Heritage Lecture Committee, 2015-present, organized the 2016 and 2017 History and Heritage Lectures

CAREER Award Panel, April 2015, served on a panel of CAREER awardees to share our experiences of preparing a successful CAREER proposal

Ph.D. Exams, Winter 2017, Summer 2016, Summer 2015, Summer 2014, Summer 2013, Winter 2013, created, administered and graded the Biological Principles Exams for EWRE Ph.D. students and/or served on Oral Exam committee for students.

Engineering Open House, Spring 2017, Spring 2016, Spring 2015, Fall 2014, Fall 2013, gave presentations and coordinated environmental engineering activities for prospective undergraduate students.

New Student Orientation, Summer 2012-2016, advised incoming first-year students on their first semester coursework

CEE Alumni Networking Social, June 2014, organized a CEE Alumni Networking Social with invited speaker John Sullivan of Boston Water and Sewer Commission, raising **\$10,000 in sponsorship and ticket sales**

Revision of Course Performance Indicators for Introduction to Environmental and Water Resource Engineering, March 2014, lead the revision of CPIs for CEE 370 amongst a group of past and future instructors of the course

Engineering Career Day, March 2013, developed an environmental engineering activity for an event to introduce female high school students to engineering careers

Department of Engineering, College of Technology and Innovation, Arizona State University, Mesa, AZ

Civil Engineering Focus Area Committee, 2010-2011- served on a committee to redevelop the curriculum for the Civil Engineering focus area for the Department of Engineering

Combined First Year Curriculum Committee, 2010-2011 - served on a committee to review and revise curricula for combined first year project-based courses for the Departments of Engineering and Computing Studies

Undergraduate Committee, 2010-2011 - served on a committee to strengthen the undergraduate education within the Department of Engineering

College of Technology and Innovation Writing Group, 2010-2011, - collaborated with a collective of faculty to share and review documents related to our professional development

Graduate School, University of Notre Dame, Notre Dame, IN

Career Center Student Advisory Board, 2008-2009, - served on an advisory board to assist the career center in addressing the needs of graduate students searching for academic and industry-based employment after graduation.

Fellowship and Grant Writing Committee, 2008-2009 - served on a committee assembled by the Dean of the Graduate School to evaluate resources available to graduate students for producing competitive proposal and fellowship applications

Vice President of the Graduate Student Union, 2007-2009 - Notable accomplishments include:

Received 2007-2008 Program Award - National Association of Graduate and Professional Students

Held first University of Notre Dame Graduate Research Symposium

Began preventative health care program for spouses and children of graduate students

Increased Conference Presentation Grant annual and lifetime cap

Redesigned website and created monthly newsletter

Faculty Senate, 2007-2009 - served as the graduate student representative to the Faculty Senate
